SWALCO has a small supply of 55 gallon rain barrels available for sale while supplies last. Please contact them for further details at 847-336-9340.

The Benefits of a Rain Barrel

A rain barrel connected to your downspout is a great way to keep stormwater out of the system and cut down your water bill! Because you are collecting right off the roof, it has few contaminants and is perfect for watering the garden and can be used for a number of other uses.

Diverting water from your downspout into rainwater catchment systems has several advantages:

- Helps recharge the water supply.
- Lowers the percentage of roof top rainfall as a component of urban runoff .
- Saves money by lowering your water bill.
- Reduces the volume of water flowing to the sewer treatment facilities.
- Backup source of water during times of drought or between rain showers.
- Helps keep our creeks, lakes and beaches clean.
- Naturally softened water-great for delicate houseplants, auto cleaning and window washing.
- Reduces the need for additional tax dollars earmarked for sewer expansion.
- Chlorine-free water helps maintain a healthy biotic community in the soil.

Cost: \$60.00 (\$150 Value)
